## From the Principal:

I write our last newsletter for the year and my last newsletter for SHCS. Over the last five years I have had the brief privilege to be part of this community. There have no doubt been challenges, no doubt mistakes; many small and some big. At times loud dissent or whispering disagreement. We do not ignore these nor doubt that in some cases they are valid. For the purpose of this last newsletter it is more appropriate to reflect on our growth, our celebrations and our achievements in the last five years.

## Climate and Culture

### *Enhanced the focus on positive relationships through:*

- School-wide Positive Behaviour Support (PBS) - including a PBS team lead by Julian Davie.
- Afternoon Tea with the Principal once a month with an MJR focus for two students from each class.
- House Team Competition - teams with most Respect Cards and Good Decision Boards.
- Using Twitter and Facebook to share small great moments from each day.
- Increasing the use of MJR language across the school and into the 'SHCS Vocabulary'
- Respect cards given out to students for respecting themselves, respecting others and respecting learning.

### *Enhanced sense of pride in SHCS through:*

- New Sports Polo Tops including colours of their house along the side panels of the tops.
- Stronger sense of pride in representing the school in sporting domains like Cross Country, Athletics, Basketball Tournaments, Triathlons, Fishing.

Sacred Heart School Community is a genuinely special place. The positive climate, energy and spirit is unique and enhanced more than other places I have been in and am aware of. We produce great results academically, we know this through public sites that track school performance. We are just as proud of the wellbeing focus and the focus on broader aspects of educating young people. Skills, interpersonal development, values, attitudes and dispositions are just as important as content knowledge.

Our community's growth is due to people not a person. Our benefit comes from those that have lead the way before. This strength is here before many of us and hopefully beyond our time.

**The key message I want to leave with our community is we are all responsible for creating this and we are all part of maintaining this. The moment individuals think this is the responsibility of others or the new principal or others alone, then we risk losing what we have.**

## From the Principal:

Having attended this school as a young man (St. Patrick's Preparatory School), enrolling my daughter Meg to attend Kindergarten in 2007 (before becoming Principal of OLOL Devonport and relocating), to returning to the school in 2012 with my 3 children in Grade 4, 2 and 1, it seems fitting that this school is where I finish my career as a Principal.

I want to thank each and every person in our community as all interactions, all challenges and all celebrations have helped me grow and develop. I wish everyone: staff, students and parents every success into the future and hope you achieve all you aspire to achieve. I look forward to being just a parent of SHCS community in 2017 and will make efforts to take it easy on the new Principal.

## Class Allocations

Classes are now allocated for 2017. We have had Orientation Days and students have had their first sense and experience of 2017. We understand for some students (and some parents) they may be disappointed for a variety of reasons. We respect these opinions while knowing that we cannot accommodate all demands asked of us.

- Whether people like it or not we only have so many choices we can make.
- Our students enter High School where little or no time is given to teacher requests.
- We also know anecdotally from students attending SPC in High School that students with broader social networks find the transition much, much easier.
- We do not expect 100% of community to be happy with every decision we make however we hope we are respected as professionals in the time and expertise we give in making these decisions.
- For example sharing your frustrations via Facebook or Social media whether private or public is not showing the trust and respect of people within the school looking after your children's welfare.

Again parents may not like reading this however we find overwhelmingly in the majority of cases where conversations at home are around finding the positive, learning to deal with disappointment and accepting that life does not always give you everything you want, children usually transition well into the following year.

In situations where there is over sharing in front of children, discussions around why next year is going to be disappointing or cause problems, it should not be a surprise that the following year this is exactly what happens.

In light of all of this we encourage parents to work with their children and to work through disappointment with an attitude that is positive into next year, that is solution and strategy focused and optimistic in outlook.

## WORKING WITH VULNERABLE PEOPLE REGISTRATION

Government legislation now requires all people working or volunteering with vulnerable people to be registered. It is an expectation placed on our schools that any person who is on an excursion, helping in the classroom, helping out with students getting changed after swimming, attending camps etc must have this registration. **If parents do not have registration or registration is pending you will not be able to volunteer and attend the excursion or school event.** This is something that we do not want to have to do but as legislation and system policy we need to adhere to.
