Camps at SHS

Sacred Heart maintains the importance of providing children with camping experiences from Grades 4-6. Many schools no longer offer camping opportunities with overnight stays. As staff at SHS we know the preparation, risk assessments, impact on personal life and considerable time that camps require. I'm proud that our staff place understands the importance of camps, an experience that lasts a lifetime for all those involved.

School camps provide children with the opportunity to work with a variety of adults, that will nurture experiential education, build intergenerational relationships and result in a different style of learning. Teacher involvement is, of course, vital to every successful camp, with the bonds between students and teachers strengthened away from the classroom.

Our teachers are equipped to convey teachable moments in a variety of settings whilst also developing and building upon personal competencies. These competencies should help shape a successful future for our children. Watching and participating in school camps for many years I know from first hand experiences the benefits children enjoy. These include:

• Social Skills

Great opportunities exist to develop a wide range of social skills that strengthen established relationships and develop new ones. Activities planned involve team cooperation such as sweeping and tidying cabins, helping around meal times or team building exercises on ropes courses and personal challenges on the giant swing and flying fox.

• Independence Skills

For some children school camp may be their first time away from home where they have to remember to brush their teeth or finish the vegetables on their plate. Camp provides an opportunity for children to take care of themselves by appreciating the interaction and connections to the physical world. Most children rise to the challenge, they enjoy this new found independence and recognise the need to look after themselves, each other and the environment. We especially challenge the children of SHS to also consider what parents do for them every day.

• Team building and development of leadership and decision-making skills

Our staff are active participants in all aspects of camp life, it would not be successful if this was not the case. However, children will often be expected to take on leadership roles and work together as a team to encourage positive decision making.

• Screen-free time

Technology has become integral to the learning journey for today's learner, but researchers warn of the dangers of overexposure in a child's development. Our camps allow for a compulsory break from access to screens, bringing children back down to earth and present in their surroundings.

Camps at SHS (con't)

- **Encouragement of physical fitness and active lifestyles**

During camp, children are exposed to a variety of experiences. These experiences are active and facilitate learning in a variety of forms, providing a greater awareness of skills and capabilities that may be new for many.

- **Personal challenges**

On camp, children will be exposed to a range of activities that they may not have tried before. Often when children are not under the direction of their parents or carers they will display a more adventurous spirit and will be willing to have a go at things they have not tried before.

Our Grade 5 Camp this week has been memorable for the children. Congratulations to all of Grade 5 for their willingness to take on the challenges presented to them, outstanding attitude and manners and for their co-operation as a collective. Thanks to Hannah Lee and Alex Hegarty for leading the camp and to John Anderson, Helen Butler, Adrienne McIntee, Cam Illingworth, Sue Chapple and Mark Hodgetts for supporting the campers.

It was a pleasure to spend time with the Grade 5 children.

Collection Notice for parents/guardians

2021 Student Residential Address and Other Information

The Australian Government Department of Education, Skills and Employment (the department) would like to advise you that a request has been made for your child's school to provide residential address and other information as required under the *Australian Education Regulation 2013* (Cth).

The school is required to provide the department with the following information about each student at the school:

- Names and residential addresses of students' parent(s) and/or guardian(s)
- Student residential address (**excluding student names**)
- Whether the student is a primary or secondary student (education level)
- Whether the student is boarding or a day student (boarding status).

Your child's school generates a **unique and unidentifiable** record number for each student record. The number is **only** used by the school for this collection. **It is not allowed to be used for any other purpose.** The number indicates to the department that each record provided is for one student.

Purpose of the collection

The Student Residential Address and Other Information Collection (the Collection) informs Australian Government school education policy and helps ensure funding for non-government schools is based on need.

The information collected will be used to inform school funding calculations. It is combined with data held by the Australian Bureau of Statistics (ABS) to calculate a non-government school community's anticipated capacity to contribute to the costs of schooling.

From 2020, a new measure of capacity to contribute, the Direct Measure of Income (DMI), was introduced. The DMI is based on the median income of parents or guardians of students at a non-government school using data collected through the Collection. More information about the DMI can be found at <https://www.education.gov.au/what-direct-measure-income>.

Use and disclosure of personal information

Your personal information is protected by law under the *Privacy Act 1988* (Cth) (Privacy Act). Personal information is information or an opinion about an identifiable individual. Personal information includes an individual's name and contact details.

Your personal information provided to the department through the Collection may be:

- disclosed to the ABS for the purposes of capacity to contribute calculations and analysis as a part of the Multi-Agency Data Integration Project (MADIP). Further information about MADIP can be found on the [MADIP page](#) on the ABS website.
- disclosed to a contracted auditor where the department may from time to time, carry out an audit of a school's submission to the Collection. The contracted auditor compares the school's submission with the student enrolment information held by the school and will not use the information for any other purpose
- disclosed to its service providers for the purposes of the provision of information and communications technology support services to the department
- used or disclosed where it is otherwise required or authorised by law.

The department does not intend to disclose your personal information to any overseas recipients.

The department's privacy policy can be found at www.dese.gov.au and includes information on:

- how individuals can access and seek correction of the personal information held by the department;
- how complaints about potential breaches or breaches of the Privacy Act can be made;

The department commissioned an independent privacy impact assessment (PIA). The PIA assesses the flows of information under the Collection, compliance with the Privacy Act and measures in place to safeguard the personal information being collected. The report is being updated, and will be available in 2021 on the [SchoolsHUB Address Collection help and support page](#). The current version is available at <https://docs.education.gov.au/node/51436>.
